#### STATUS – SALTAIRE MARKET REDEVELOPMENT

Mayor Cox provided an overview of the current status of the property located at 100 Broadway, also known as the Saltaire Market. He provided an overview of the process the Board has undertaken to redevelop the property in anticipation of a grocery market reopening for the summer of 2015. Renderings and floor-plans of the most recent schematic design for redevelopment, which had been modified based on continuing input from the architectural design committee, were posted at the meeting. Village resident Kim Ludlow had also developed a scale model of the proposed property redevelopment and some of the existing surrounding buildings, and they were presented as well. Mayor Cox stated that the Board's plan was to bid out both the proposed grocery store and the proposed municipal building as separate items sometime in October, and at that point a more informed decision could be made as to whether the capital budget could support both structures. He stated that it was the Board's responsibility to investigate all options for development for the present and future needs of the Village, which, in the Board's opinion, includes seeking regulatory permission for both structures. He stated that a decision about the municipal building would be made subsequent to the receipt of bids, which could result in the municipal building being built immediately to take advantage of economies of scale, in the municipal building being delayed for consideration by future Boards, in the municipal building being redesigned to a smaller structure, or any combination therefore. Mayor Cox also stated that once the foundation and sanitary system contract was awarded for the grocery building, which was up for consideration later in the meeting, that action would finalize the design for the grocery building except for non-structural finishes. Mayor Cox then opened the floor first to the Board members and then to the attendees for comments and questions. After all having a chance to be heard, Mayor Cox moved on to the rest of the agenda.
